Re: SCP Carlstadt Site Administrative Order,  
Index No. II CERCLA-50114

Dear Mr. Murphy:

As you are aware, Respondents implemented the activities set forth in the Project Operations Plan ("POP") Revisions Nos. 8 and 9 during the past winter. Preliminary results of these activities were submitted to EPA by letter dated March 17, 1989 from the former Facility Coordinator, H. Gilbert Weil. In addition, a verbal presentation of the results was made to EPA at a meeting on March 31, 1989 at EPA's Edison office. However, to date, EPA has not received a final report summarizing the results of these activities.

According to the approved schedule for implementation of the POP Revisions, the quality assurance/quality control review of the preliminary analytical results of these activities should have been completed by no later than June 9, 1989. At that time, a report containing the final results of implementation of the POP Revisions should have been submitted to EPA for review.

Please submit the final report to EPA immediately.

Sincerely yours,

Raymond Basso, Chief  
New Jersey Compliance Branch
